Hydrobiologia

The International Journal of Aquatic Sciences

Volume 551, 15 November 2005

Theme

Ecology and Disturbances of Aquatic Systems

Guest Editors

J.N. Beisel, L. Hoffmann, L. Triest & P. Usseglio-Polatera

Preface vii–viii

Author list ix–x

List of reviewers xi–xii

LIMNOECOLOGY

Short time scale changes in underwater irradiance in a wind-exposed lagoon (Vaccarès lagoon, France): efficiency of infrequent field measurements of water turbidity or weather data to predict irradiance in the water column
D. Banas, P. Grillas, I. Auby, F. Lescuyer, E. Coulet, J.-C. Moreteau, B. Millet 3–16

An under-appreciated component of biodiversity in plankton communities: the role of protozoa in Lake Michigan (a case study)
H.J. Carrick 17–32

Alteration of fish diversity downstream from Petit-Saut Dam in French Guiana. Implication of ecological strategies of fish species
B. de Mérona, R. Vigouroux, F.L. Tejerina-Garro 33–47

Spatio-temporal patterns of protozoan communities in a meso-eutrophic reservoir (Esch-sur-Sûre, Luxembourg)
V. Jacquet, N. Lair, L. Hoffmann, H.-M. Cauchie 49–60

A preliminary study of heterotrophic picoflagellates using oligonucleotidic probes in Lake Pavin
E. Lefèvre, J.-F. Carrias, C. Bardot, T. Sime-Ngando, C. Amblard 61–67

Spatio-temporal investigations on the planktonic organisms of the Middle Loire (France), during the low water period: biodiversity and community dynamics
V. Picard, N. Lair 69–86

Diverse responses of planktonic crustaceans to fish predation by shifts in depth selection and size at maturity
I. Thys, L. Hoffmann 87–98

Distribution of hepatotoxic cyanobacterial blooms in Belgium and Luxembourg
R. Willame, T. Jurczak, J.-F. Iffly, T. Kull, J. Meriluoto, L. Hoffmann 99–117

EXOTIC SPECIES

Relations between river plant richness in the Portuguese floodplains and the widespread water knotgrass *(Paspalum paspalodes)*
I. Bernez, M.T. Ferreira, A. Albuquerque, F. Aguiar 121–130

Ecological, dynamic and taxonomic problems due to *Ludwigia* (Onagraceae) in France
S. Dandelot, R. Verlaque, A. Dutartre, A. Cazaubon 131–136

Patterns of biological invasions in French freshwater systems by non-indigenous macroinvertebrates
S. Devin, L. Bollache, P.-Y. Noël, J.-N. Beisel 137–146

Response of *Elodea nuttallii* (Planch.) H. St. John to manual harvesting in the North-East of France
F. Di Nino, G. Thiébaut, S. Muller 147–157

BIOEVALUATION

Macrophytic communities inhabiting the Huveaune (South-East France), a river subject to natural and anthropic disturbances
H. Abou-Hamdan, J. Haury, J.-P. Hebrard, S. Dandelot, A. Cazaubon 161–170

Functional differences among benthic macroinvertebrate communities in reference streams of same order in a given biogeographic area
V. Archaimbault, P. Usseglio-Polatera, J.-P.V. Bossche 171–182

The ability of aquatic macrophytes to assess fish farm pollution in two salmon rivers
H. Daniel, I. Bernez, J. Haury, D. Le Coeur 183–191

A top-down approach for the development of a stream typology based on abiotic variables
M. Ferréol, A. Dohet, H.-M. Cauchie, L. Hoffmann 193–208

Diatom communities and water quality assessment in Mountain Rivers of the upper Segre basin (La Cerdanya, Oriental Pyrenees)
J. Gomà, F. Rimet, J. Cambra, L. Hoffmann, L. Ector 209–225

Biodiversity and structure of macroinvertebrate communities along a small permanent salinity gradient (Meurthe River, France)
C. Piscart, J.-C. Moreteau, J.-N. Beisel 227–236

Odonata, Amphibia and environmental characteristics in motorway stormwater retention ponds (Southern France)
O. Scher, A. Thiéry 237–251

Characterization, ecological status and type-specific reference conditions of surface water bodies in Wallonia (Belgium) using biocenotic metrics based on benthic invertebrate communities
J.-P.V. Bossche, P. Usseglio-Polatera 253–271
